This is to confirm the message I believe my secretary passed to you the other day relative to my inability to attend the summer study at Woods Hole on the 19th.

I believe that I indicated the possibility of my having to be out of the country when we first discussed the meetings, and it has now developed that I will have to take this emergency trip during the week of the 19th.

I regret very much that I have had to forego this attendance and hope that it will not inconvenience you too much.

Sincerely yours,

Signed Herbert Scoville, Jr.
